ROUND JUMP è un attrezzo resistente e leggero, ottimo per attività in acqua:

- Ideale per lezioni di fitness in acqua generiche, di gruppo, ma anche in ottica di preparazione atletica e riduzione funzionale
- Minimo ingombro di più attrezzi fuori dall'acqua.

ROUND JUMP is a lightweight and strong workout gear excellent for water activities:

- Ideal for aquafitness, group classes, for aquatraining or functional rehabilitation and athletic training targeted.
- It takes a minimal amount of space out of the water.

**ROUND JUMP** Workout gear, fun and very effective, both in aqua fitness, aquatraining for functional rehabilitation and athletic training targeted (including proprioceptive activities), using the jump in the water, all its properties are enhanced, without any risk of injury.

It also reveals funny and very engaging, motivating workout.
