### WHY Japanese Like Bathing?

Soaking the body in a hot spring is one of the secret of longevity among Japanese people. Bathing is not only for washing dirt. Releasing fatigue of the day from mind and body. Expecting effects of the hot spring therapy.

Halland Fill Spirit

## GOSHU QUALITY of ONSEN POWDER PRODUCT

- Harmful ingredients, such as Sulfur, are NOT contained.
- We recreate texture and after-bath feeling of Onsen with harmless ingredients.
- Instead of unwilling smell of Onsen, we carefully selected long lasting fragrances for a relaxation, and chosen elegant colors for a prime bath time experience.

# TOYAMA DEEP SEA WATER - Miracle Mineral Balance

#### The Miracle Mineral Balance which is impossible to be recreated artificially

The ocean is said to be the origin of life, and deep ocean water is the source of minerals with an excellent balance of natural components. Research has found that the mineral balance of deep sea water is nearly identical to that of a mother's amniotic fluid. Amniotic fluid is a miraculous liquid that protects and nurtures humans, and is the most fundamentally natural place to start. The unlimited possibility of deep sea water is also drawing attention in the fields of health foods, beverages and pharmaceuticals.

"Toyama Quality" is the heart that we do
